		\$140.00 Each \$140.00 Each \$234.99 <a href="#">x Remove   Update</a>	

....now that's significant savings!

For info, go to our website ([www.milbatteries.com](http://www.milbatteries.com)) for a PDF with step by step instructions on how to apply for the discount. Qualify with a ".mil" or ".gov" email address. **You must complete the short online training for the discount to be activated.** Shipping only to a CONUS street address.

### ALTERNATIVE TO 6T BATTERY on the Variable Reach Rough Terrain Fork Lift (VRRTFL)

**6K or 10K model:** Here's another example of where you can substitute Optima AGM batteries for the flooded 6T batteries or the more expensive 6TAGM batteries. These pictures are from a VRRTFL with old 6T batteries and then with model 34 Red Top Optimas.

## Newsletter - #5

**OPTIMA® SPIRALCELL TECHNOLOGY®** takes AGM battery performance to a much higher level.  
Let's talk vibration damage resistance.....

Damage from vibration is a leading cause of battery failure. OPTIMA batteries have over **15 times more vibration resistance** than traditional batteries due to patented Spiralcell Technology.

Most people don't realize that there are 2 of the D34M (NSN 6140-01-475-9355) Blue Top Optima batteries mounted sideways on the M777 towed Howitzer. Talk about some heavy duty vibration! As you can see from the graph above the Optima Spiralcell technology dramatically outperforms the competition in high vibration applications....by literally thousands of hours!

**Did you know that MILITARY shops in CONUS can buy direct from Optima and save money?  
Contact us for details.**

**NOW AVAILABLE: A new 24-volt battery for the 3kW generator, 6140-01-610-6102.  
50% more cranking power and it can sit longer before needing recharge.  
Purchase from DLA or direct from the factory.**

Want to get the most out of your batteries?

Free on-site battery maintenance procedures and training.

Proven to be effective at reducing lead acid battery consumption.
