# The NODE Portable Hotspot

**40+hr**  
runtime  
on a single charge

**8lbs**  
lightweight  
for easy portability

**4G LTE**  
connection  
secure and encrypted

**WiFi**  
dual band  
802.11 a/b/g/n/ac

The NODE creates an LTE backed WiFi “bubble” wherever you need it.

The NODE combines a rugged, Military grade battery and a Cradlepoint router in one easy-to-use box. The internal battery can run the hotspot for 20+ hours on a single charge (40-hour battery optional).

**1**

## Button Operation

Simply press one button to activate the NODE. No extra steps needed.

**IP65**

## Weatherproof

Safely operate and transport the NODE in any weather condition.

## Flexible Charge

Charge the NODE from the wall, a vehicle, or a solar panel.

## TSA Compliant

Check or Carry-On with the NODE's advanced safety technology.

- ✓ Integrated Cradlepoint IBR600 (optional IBR900)
- ✓ Custom, High Performance, Company Antenna Array -2x2 MiMo LTE + 2x2MiMo WiFi 2.4/5Ghz + Optional GPS
- ✓ 64 simultaneous users (128 with IBR900 router)
- ✓ Cellphone charging add-on available
- ✓ Solar charging option
- ✓ Compact (10.2" x 7.9" X 4.5"). Drop resistant case
- ✓ Made in the USA!
